

SOLDElddis Odyssey 550 (2010)

Overview

The Odyssey 550 has an L shaped front lounge with a rear island bed on a single axle.

classic style for the connoisseur The Odyssey is crafted with finesse and designed to delight the most demanding of caravanners. A host of features and detailed improvements have created a stunning range from 2010, whilst maintaining features that make the Odyssey such a sought after range. Draw admiring glances with the sleek front and rear panels, complete with the Elddis badge of distinction. Inside the quality and attention to detail continue, with class-leading designer cabinetry and new luxury deep hardwood-edged worktops. Style and quality in equal measures, but still exceptional value for money.

Striking luxury soft furnishings are sumptuously restful, with domestic quality sprung upholstery throughout, you can make the Odyssey a tourer that's truly yours. A fixed double bed make for a super-luxurious space, with exclusive Coolmax memory foam mattress and a bed that is easy to lift, with access to additional storage space. Truma Rapid blown air heating to washrooms and bedrooms ensure your comfort all year round, plus selected models come with a drying cupboard with warm air outlet. The Odyssey boasts superb trim level, making this no ordinary caravan.

Enjoy the sound of your favourite radio station, share your latest i-Pod downloads or stretch out and watch TV. There's space for everyone to do their own thing or to enjoy family time together

The Odyssey's exterior gas barbecue point and cosy awning warmer guarantee the fun continues well into the evening, whatever the weather!

Cool Elddis graphics boldly adorn the Odyssey range, which now comes with full height GRP front panel and sleek full height rear panel. Jokon rear light clusters with twin fog and reverse lights complement the crisp styling, whilst giving you further peace of-mind. Sporty wheel spats and Mirage silver alloy wheels complete the look. Inside, the wow-factor continues. Luxury designer fabrics not only create a sophisticated mood, but are longlasting and durable. LED lighting sets the tone also saves power, making your battery last longer. Hardwood framed locker doors and deep hardwood-edged worktops showcase the craftsmanship and quality synonymous with the award winning Odyssey

Services

The Odyssey's kitchen is a dream for aspiring chefs. Equipped to perform, whether you're rustling up a hearty breakfast or a sit-down dinner for family and guests. The Thetford fridge is spacious enough for all your provisions and ice cold drinks. Should you tire of barbecuing or opt for a cosy night in, the Spinflo Prima oven, 3-burner hob and microwave cater for every whim. Additional electric sockets in the Odyssey, include a double socket in the kitchen – perfect for tea and toast on the go! A sleek stainless steel sink with integral drainer is both stylish and practical and Chinchilla glass covers not only look the part but also provide you with virtually indestructible food preparation space – touches you'll find only with Elddis.

Odyssey models have stunning bathrooms, and award-winning walk-in Rimini double shower for unrivalled luxury. The Odyssey difference is clear, with thicker domestic style bathroom doors and deeper basins with beautiful polished chrome accessories and fittings. The Odyssey comes with a Whale inline water filter and submersible pump, Truma water heater and Thetford C250 swivel toilet with electronic flush.

Safety & Security

Stylish in every detail, the Odyssey's craftsmanship is enhanced further with the unparalleled towing experience unique to Elddis. Tow with confidence, safe in the knowledge that only Elddis use the German precision-engineered BPW Swing V-Tech chassis, which we believe to be the very best available. This unique partnership gives you improved ride quality, enhanced cornering stability and enhanced high-speed towing stability through constant dynamic self-steering. Hitching is made quicker and easier with Elddis' exclusive Easy Brake from BPW. The comfortable brake release is a single lever operation, with no awkward push button and has an integrated shock absorber and track stabilisation. The Winterhoff WS3000 stabiliser provides outstanding stability control in sway and pitch and all-round better driving comfort. You may choose BPW's innovative and industry-leading Intelligent Drive Control (iDC), which is an option exclusively available on Elddis touring caravans. With an automatic anti-snaking device, the iDC system detects any risk of snaking and gives you safe course correction in seconds. Its unique Failsafe Function ensures that your iDC works seamlessly, even in the event of a power failure. Gas bottle storage in the Odyssey is designed to take 2 bottles. LED high level brake lights and Jokon rear light clusters with twin fog and reverse lights ensure your safety and visibility
